

## Assingment 2 Feedback: Xiang Li

### Question 1

- Great informative plots.
- Consider using filled dots in your scatterplots. (`pch = 19`)
- The correct coordinates of the Ragusa cathedral are: 36.9256 and 14.7290 and so the symbol is expected to fall on the area of Ragusa on the map.

### Question 2

- Nice check of the conditions. You could have also checked if the investment is a positive number.
- Very good job also in the rest of the exercise!

### Overall

- Nice structure of the file.
- Good practice that you are checking the results of each question by printing them, even when not asked.
- Excellent job overall, keep it up!
